

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	03/07/2026
Team ID	24A55A4212
Project Name	Visitor Management System
Maximum Marks	4 Marks

Functional Requirements :

Requirement ID	Functional Requirement	Description
FR-1	Visitor Registration	Visitors can register their details through the ServiceNow portal before arriving or at the reception.
FR-2	Host Approval Workflow	The system automatically sends the visitor request to the concerned employee/host for approval.
FR-3	Visitor Check-In & Check-Out	Security staff can record visitor check-in and check-out times, maintaining accurate logs.
FR-4	Email/SMS Notifications	The system sends notifications to the visitor, host, and security regarding approval, arrival, and exit status.
FR-5	Visitor Records & Reports	The system stores visitor details securely and allows administrators to search, view, and generate reports.

Non-Functional Requirements :

Requirement ID	Non-Functional Requirement	Description
-----------------------	-----------------------------------	--------------------

NFR-1	Performance	The system should process visitor registrations and approvals quickly with minimal delay.
NFR-2	Security	Only authorized users (Security, Receptionist, Host) should access the system based on their roles.
NFR-3	Reliability	The system should operate without failures and maintain accurate visitor records at all times.
NFR-4	Usability	The application should provide a simple, intuitive, and user-friendly interface for visitors and staff.
NFR-5	Availability	The system should be available whenever required during organizational working hours and support uninterrupted visitor management.
